## New Design:

We are excited to share our new patented Clamshell lid design. This lid is helping to revolutionize the roll off waste industry. With the heightened awareness to safety and environmental issues, customers are more often requesting lidded containers. This new, innovative lid is safe and easy for anyone to use and secures with only the slightest effort, either with manual opening or crank assisted. It keeps the waste in and prevents illegal dumping or scavenging. Check out this quick video showing how easy it is to use!

## Frequently Asked Questions:

### **What is your lead time, and how can I avoid lengthy lead times?**

*From date of order we strive for a 2-3 week delivery timeline. During peak times and number of orders in the production queue this lead time may fluctuate to 2-8 weeks. If you have a possible upcoming contract you can contact us to arrange holding a place in our production queue.*

**Do you ship to BC?** *With our nesting style front load and roll off bins we have been able to ship cost-effectively throughout Western Canada and the Northern states.*

### **Get to know Paul!**

Paul is our Sales Representative and has been with Fusion West since September. When he's not out selling our amazing products you can find him spending time with his family and exploring the outdoors!

I have been enjoying my new clamshell bin very much, it only takes one person to open & close it. I would highly recommend this bin to all your customers. Never exchange it for anything else!

*Rodney S. Mellquist—End of the Roll Saskatoon*
